

7) I believe that the implementation of the slider, the value and units showing upon mouse over as well as text wrapping in the bubbles chart is exceptional and original. Combining all the buttons into one will go a long way in making the chart less overwhelming and was not previously suggested, therefore I believe that it is original.

While showing the value and units required extensive data and array manipulation, and the text wrapping required the breaking of strings into multiple components, as well as lots of calculations for the number of lines. I believe these are exceptional.
